

As we move into 2019, I would like to say how thankful I am for the supportive and caring teams we have here at Bayberry Commons. There have been many changes over the last year. We introduced new members to the leadership and direct care teams, as well as adding an in-house therapy team. Through it all, we have kept a core crew that have adapted to the changes like true champs. Their dedication and passion to our residents is truly appreciated.

We have set new goals for 2019. We have adopted the phrase "We're trying something new" to ensure we stay at the cutting edge in our thought processes and care strategies. We will be introducing new ideas this year and reinventing some long standing traditions. Enhancing the lives of our residents and their families is our mission and we are excited to get started. As always, we encourage feedback as you experience the changes. We value your continued support as we move forward into the coming year and beyond.

Best Regards,

Tonya Landry, MBA, OTR/L
